FRESH FRUIT

The Core of our Business! Our peaches, pears and plums are carefully packed in returnable, half-bushel crates. Apples are washed, graded, and sized on a semi-automated grading line and then packed – unwaxed – in returnable, wooden bushel crates. Ungraded ("tree-run") apples are also available in bulk orchard bins throughout the harvest season. Sometimes our inventory is supplemented with fruit from other growers in PA, NY and VA when demand exceeds supply.
